

The 14th International Conference on Integrated Design and Production CPI'2026

April, 15 – 16 – 17 2026 – Fez-Morocco

Scope

CPI'2026, hosted by the Faculty of Sciences and Techniques of Fez (FST), Sidi Mohamed Ben Abdellah University, and the LARSI laboratory, aims to bridge conceptual, methodological, and technological approaches in industrial design and production. The conference brings together researchers, industry professionals, and decision-makers to share advances in digital modeling, structural analysis, intelligent design, integrated manufacturing, and sustainable, connected industry.

Key fields include civil engineering, geotechnics, mechanical engineering, and materials science. Supported by CNRST and major industrial partners, CPI'2026 promotes research-industry collaboration, public-private partnerships, and innovation for sustainable industrial development. By participating in CPI'2026, you will gain:

- In-depth knowledge of products, implementation strategies, and industry trends
- Opportunities to network with colleagues specializing in all facets of design and production
- A platform to share your experiences and learnings with other experts
- Exposure to innovative solutions for enhancing performance
